Purley Public Realm Improvements

Background

The Purley Public Realm improvements follow on from some of the ideas that were developed at the Community Planning Weekend in July 2008 where the Vision for Purley was created. The proposed improvements to Purley High Street, Purley Parade and the area around Purley Station Approach include new paving to the footway, street trees and landscaping, signage, the removal of the recycling facility and the creation of a new square at Purley Parade. Funding has been obtained from Transport for London and the works are proposed to start in October of this year.
