16 JUNE 2015, 7.00PM – 8.30PM

ST. LUKE'S COMMUNITY CENTRE

## THE SITE

The 2.56 hectare site is south of Canning Town station and west of Silvertown Way. The redevelopment provisionally includes approximately 1200 homes, including affordable and private rented homes, and 8000 square metres of non-residential floor space, including a new hotel.

## COMMUNITY PLANNING

Local residents and representatives from local organisations participated in the Silvertown Way Community Planning Weekend on Friday 17 and Saturday 18 April 2015 at St Luke's Community Centre, Canning Town to help create a new Vision for this important site. People took part in workshops, walkabouts and hands-on planning groups to consider key issues and opportunities for the site and its relationship to the wider Canning Town and Custom House Regeneration Area.

Following the public workshops, the John Thompson & Partners (JTP) team have analysed and summarised the outcomes and created an illustrated Vision for the site, which was reported back to the community on Wednesday 29 April.

A key outcome from the Weekend was people's desire to continue to be involved in the development of proposals for the site. In response to this, the Silvertown Way Community Forum was established.

The team continues to develop the proposals further in consultation with the community and other stakeholders and is drawing up a detailed planning application for the site, which will be submitted to Newham Council in the autumn.
