**You are invited by JTP, on behalf of St William, to the Beckton Gasworks (Phase 1) Community Planning Weekend to help create a new sustainable riverside neighbourhood, the first phase of a future town centre, on the banks of the River Thames.**

The former Gasworks is an important site in Beckton, owned by St William Homes LLP (part of the Berkeley Group). The site has been allocated in the 2018 Newham Local Plan for comprehensive residential-led, mixed-use development. The redevelopment provides an opportunity to bring forward high-quality new homes, a mix of other uses, significant public realm and connections to and through the site, including access to the historic river frontage.

## Give us your ideas

St William is committed to working closely with the local community and has appointed architects and community planners from JTP to facilitate the Beckton Gasworks (Phase 1) Community Planning Weekend (CPW), which will be open to everyone. Building on the community engagement work commissioned by LB Newham for the wider Beckton Riverside allocation, the aim of the CPW will be to consider issues and opportunities and help shape the Vision for the future regeneration of Beckton Gasworks and its relationship with the wider area through facilitated workshops, walkabouts and hands-on planning groups.

## Vision Report Back Presentation

After the public workshop days, the JTP-led team will analyse and summarise the outcomes and draw up a shared Vision for Beckton Gasworks (Phase 1), including an illustrative masterplan, which will be presented back to the local community on Tuesday evening 7 November.
