

## **SENIOR TECHNICAL ARCHITECT**

### **London Studio**

JTP is an award winning, international placemaking practice of architects and masterplanners.

From our studios in London and Bristol we undertake placemaking projects at every scale, from cities and towns, to neighbourhoods, streets and the design of individual buildings.

We are looking for an enthusiastic and talented Senior Technical Architect to join our growing technical team.

The ideal candidate will have a minimum of five years' post-qualified experience in the design and delivery of medium to large scale UK residential-led projects across RIBA Stages 4 and 5. Proficiency in Revit is essential, and experience navigating BSR Gateway 2 processes will be a distinct advantage.

You will be comfortable translating design intent into clear, coordinated technical drawings, leading the resolution of technical challenges, and ensuring full compliance with the Building Safety Act and wider regulatory requirements. A proactive, solution-focused approach and the ability to confidently coordinate consultants and project teams will be essential.

JTP is passionate about placemaking and people. We place great importance on making our studios collaborative, stimulating and enjoyable places to work with amazingly talented teams who have a lot of fun along the way.

Our unique approach and investment in people has received high praise, recognised with over 200 design and people-related awards including being Highly Commended for the BD Architect Employer of the Year 2025.

In return for your enthusiasm and dedication we can offer you a great place to work, competitive salary, a shared learning environment, 25 days holiday (plus 3 additional days at Christmas), private medical insurance including 50% off gym membership and other benefits.
